

# Get Involved

We encourage all budding nature lovers to drop into our Saturday Clubs, held between 9.00 and 13.00 in St Clement's. Free coffee, tea, lemonade, cakes – and lots of chat!

## Themes

The Clubs will be organised by enthusiasts on a relaxed basis

- Plants (David Bailey)
- Animals and Insects (Paul Munton)
- Birds (yet to be organised)
- Astronomy (yet to be organised)

## Location

During the Winter, most action will take place in the Church.

In the Spring and Summer there will also be expeditions to local and national natural history 'hot-spots'.

If there is interest from local schools, we may also arrange talks and discussions to add value to elements of the school curriculum.

Let's see what works best.
